### **Reasons for Allowance**

1. Claims 1-3 are allowed over the cited prior art.
2. The following is an examiner's statement of reasons for allowance:

Regarding independent claim 1, Ogata et al (US 6,641,479) disclose a control adapter device (figure 27-30) for attaching to a control unit (figure 1) having an input control part, the control adapter device comprising: a connector for electrically connecting the control adapter device to the control unit (column 13, line 65 – column 15, line 15). However, Ogata and the cited prior art fail to disclose wherein the control adapter further comprising a transmission part for transmitting, by wireless transmission, a signal that is input from the input control part; a case supporting the connector and containing the transmission part therein; an engagement member being supported by a shaft in the case for rotatable movement between an engagement position and a disengagement position, the engagement member being formed to engage the control unit, and including a press-maneuver part for receiving a pressing force to thereby rotate the engagement member; and a restriction member being disposed in the case to block movement of the press maneuver part of the engagement member, and thereby restrict movement of the engagement member beyond the disengagement position.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Priority***

3. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

***Information Disclosure Statement***

4. The information disclosure statements (IDS) submitted on 02/25/2004 and 01/30/2006 are in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statements are being considered by the examiner.

***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Goto et al (US 5,853,326) disclose controller unit for electric devices.

Nishiumi et al. (US 5,897,437) disclose controller pack.

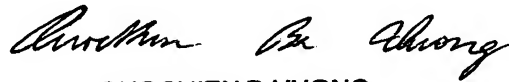

Ogata et al. (US 6,171,191) disclose actuating device and system exploiting the actuating device.
